1st August 1917.

My dear Sir Robert.

Pardon my temerity in writing you but I am anxious to know whether or not Mr Auden's name would be considered to fill the vacancy caused by the death of our late Professor in Latin - I have made enquiries and I find that the whole trouble with Mr Auden at Upper Canada was simply that he would not or could not "mix"

with the boys - This is without doubt a very great drawback for the Principal of a boys college, but I do not think bears as much weight with the more advanced and older young men - I am told he is an excellent lecturer but you know more about him a great deal than I do - My reason for writing is simply that Mr Audin is a personal friend of mine and I honestly believe would fill the position - but please do not allow this note to influence you against your better judgement should you have any body else that you think better fitted for the post - The University College must be the primary consideration

I trust you are having a jolly good holiday which you so richly deserve after your years work.

With Kindest remembrances to your good Lady

Yours sincerely

Albert Gossipaul

President R. J. Falconer.

Huntsville, Ont.

Dear Sir.

When I was talking with Dean Bakenham on Saturday. he suggested to me that I inquire of you in regard to vacancies in the department of the Classics with a view to making an application if you still have openings to be filled.

I received my degree of Doctor of Philosophy in the Classics

this year from Harvard University. I should be glad to make application for any suitable position you may have in your University and to give my qualifications in detail if you would be good enough to let me know what is available.

I am, Sir,

Very sincerely yours,

Charles P. Adams.
